ENJOY A REFRESHMENT

Over the next six months **City Park Radio** invites volunteers, members and the wider community to help us to imagine how we can grow the station as a dynamic force in our community for the next 40 years... and beyond!

This project needs **your ideas** and **your energy**.

Gatherings, like this one, will provide feedback and seek input as we reflect on the past, and grow City Park Radio for a changing community and a changing world. Your thoughts matter.

A **Volunteer Survey** will be sent to you over the next month. Then we will be reaching out to members, past and present supporters, and the wider Launceston and Tamar Valley community to help shape the station for the future.

So much to celebrate! Are you in?
